Title: ____________________________________________
Given Name: ______________________________________
Family Name: ______________________________________
Company: _________________________________________
Department: _______________________________________

1. I am aware that commercial/industrial samples need to be recorded in the log book and will be charged at the external rate.
2. I will report any damage to X-Ray Laboratory staff as soon as possible. Note: personnel that cause damage to instrumentation or equipment in the laboratory due to misuse or negligence may be liable for any repair costs incurred.
3. I will provide a Safety Data Sheet (SDS) for my samples.
4. Use of these x-ray diffraction facilities will be acknowledged appropriately in publications containing x-ray diffraction results. I will provide copies of all publications.
5. Declaration of pregnancy is the sole responsibility of the User. Once declared, there is a radiation equivalent-dose limit to the surface of the User’s abdomen of 2 mSv for the remainder of the pregnancy.
